Namdhinggo - Character Set Support

Namdhinggo supports the Limbu script, the double danda from Devanagari, and a basic set of Latin characters. Inclusion of a basic Latin repertoire is provided as a convenience, e.g., for use in menus or for displaying markup in text files. These fonts are not intended for extensive Latin script use.

Supported characters

The following character ranges are supported by this font:

Unicode block	Namdhinggo support
